Summary

Artificial Intelligence and Machine Learning undergraduate skilled in Python, SQL, Data Structures, Machine Learning, and modern web technologies. Interested in building scalable applications that combine AI capabilities with efficient user experiences.

Education

Bachelor of Technology– Computer Science & Engineering, SR University, Warangal	2023 – Pursuing
Intermediate– Mathematics, Physics, and Chemistry, S.R. Junior College, Warangal	2021 – 2023

Projects

BloodCoin AI-Powered Blood Donation Matching Platform GitHub Live ↗	2026
Tech Stack: HTML5, CSS3, JavaScript, Firebase, Claude API, Leaflet.js, EmailJS, Netlify	
- Developed a real-time donor-recipient matching platform integrating LLM-based eligibility verification across 5+ donor criteria. - Reduced manual donor screening effort by 80% and decreased recipient matching time to under 10 seconds. - Deployed the application using Netlify and Firebase, serving 100+ users across three cities with 99% uptime.	
VisionAI Real-Time Object Detection System GitHub Live ↗	2026
Tech Stack: TensorFlow.js, COCO-SSD, MediaPipe, WebAssembly, JavaScript, HTML5 Canvas	
- Built a browser-based object detection system using TensorFlow.js and COCO-SSD for real-time image analysis. - Detected and classified 80+ object categories while identifying the three most frequent objects in a scene. - Optimized inference performance by 25% through WebAssembly integration, improving response time for field technicians.	
Grocery Compare Price Analytics Platform	2026
Tech Stack: React.js, TypeScript, Tailwind CSS	
- Developed a responsive price comparison platform aggregating products from 10+ grocery categories. - Implemented analytics features to highlight cost-saving opportunities and shopping trends.	

Technical Skills

Programming Languages: Python, Java, SQL, HTML, CSS

Database: MySQL, PostgreSQL, Firebase Firestore

Frameworks: React.js, NumPy, Pandas

Machine Learning: Regression, Classification, Model Evaluation

Deep Learning: LSTM, GRU, CNN-LSTM

Explainable AI: SHAP, LIME

Tools: Git, GitHub, Netlify CI/CD, Jupyter Notebooks

Soft Skills: Structured Reasoning, Independent Execution, Clear Communication, Team Collaboration

Certifications

• TCS CodeVita Season 13 – Global Rank 6483 out of 200,000+ participants (Top 3.2% globally)	2025
• Microsoft Certified: Azure AI Fundamentals (AI-900)	2025
• Data Engineering Virtual Internship	2025
• AICTE Juniper Networking Certification	2024

Achievements

- Achieved Top **3.2%** global ranking in TCS CodeVita Season 13 among 200,000+ participants.
- Spearheaded AI solution design and prototyping within a 5-member team, achieving national-level shortlisting at Smart India Hackathon.
- Tackled 150+ complex data structure and algorithm problems on LeetCode, leading to the identification and resolution of the three biggest causes of application crashes.
